City of installation	Terni
Country of installation	Italy
Commissioning date	2018
Country of ACO sales organisation	Italy
Segment	Food & Beverage Production
Subsegment	Confectionery

Project information

Customer description	<p>Froneri is on a remarkable quest, which started in 1932 when Roncadin was formed. The long and successful consolidation journey was launched in 2006 with the creation of R&R, creating a global leader in private label, which was founded on a relentless pursuit of operational excellence and a deep knowledge of the ice cream industry.</p> <p>The next phase commenced in 2016, when R&R and Nestlé combined forces, culminating in the formation of Froneri. With the addition of Nestlé's unique brand portfolio and brand know-how, a pureplay ice cream company was created, strong in both the retail and out-of-home channels with a comprehensive suite of brands. This combination allowed Froneri to fill an entire freezer with its diverse product offerings.</p>
Project description	Refurbishment of current ice cream facility
Key factors of ACO success in this project	Well established relationship and cooperation on local level followed by another project in Ferentino.

Products installed

ACO modular channel

ACO mesh grating
